(U) PREFACE:

(S/NF/SG/LIMDIS) The Special Activity Report is part of on-going taskings which provides data in response to a request from Joint Interagency Task Force-East (JIATF-East) in Key West, Florida. The data provided in this report will be used by the J2 division in their assessment effort regarding their counterdrug mission. The information provided in this report was generated by PAG-TA employing remote viewing (RV) methodologies.

(S/NF/SG/LIMDIS) The data provided in this report is a series of taskings, which concentrated on a target "vessel". The results were forwarded to JIATF-East by secure fax. The JIATF-East evaluation feedback is at Appendix B.

(S/NF/SG/LIMDIS) The methodology used in this activity is exploratory. Results should not be considered as stand-alone; but used or evaluated in conjunction with other proven data sources (HUMINT, SIGINT, IMAGERY, OPEN SOURCE, and/or MASINT). Generic data (e.g., general shapes) are more reliable than specific data (e.g. dimensions, names).

(U) DATA SUMMARIES:

(S/NF/SG/LIMDIS) Following are the perceived highlights from each source. Tasking was: Access and describe target vessel. Provide name, type, and location.

- (S/NF/SG/LIMDIS) Source A:

-- The target vessel is medium sized and light in color. It is located south or south east of the United States. The activity is narcotics smuggling and four to five men are involved in this scenario. Two of these men are of interest in particular and are suspected of illegal drug activity. This vessel will travel in a northern direction in the future in an attempt to make a connection.

- (S/NF/SG/LIMDIS) Source B:

-- The target vessel is a multi-hulled ship i.e. catamaran or trimaran. It is white and blue. It has a bizarre or uncommon motor/engine/energy source.

-- It is somehow related or otherwise associated with either a produce grower or tree nursery owner west of Miami, Florida.

-- The concept of sheets of plywood is somehow associated with this target.

-- The phonetics LAZY GIRL and/or GIRL'S ---- are associated with the target. It's location is associated with the term STINGRAY i.e. Stingray Cove or Cay or Bay or something like that.

DATA SUMMARIES

(S/NF/SG/LIMDIS) Following are the perceived highlights from each source. This is a follow-on tasking to Project (94-270-0) dated 24 Oct 94. Tasking was: Access and describe location of drugs and packaging.

- (S/NF/SG/LIMDIS) Source A:

-- The drugs are hidden near the upper level down under the bow on the right side of the vessel. They are in blue packaging with bands possibly tie twists.

- (S/NF/SG/LIMDIS) Source B:

-- Source B's input for this project will be included in the project to follow. Project (94-273-0).

- (S/NF/SG/LIMDIS) Source C:

-- Drugs are located in the "aft" of the ship. Drugs are wrapped and packaged in plastic bubbles. Drugs are in the form of cocaine. The drugs could be in brown boxes. Men on the vessel know that there are drugs on board.

DATA SUMMARIES

(S/NF/SG/LIMDIS) Following are the perceived highlights from each source. This is a follow-on tasking to Projects (94-270-0) dated 24 Oct 94 and (94-271-0) dated 24/25 Oct 94. Tasking was: Access and describe off-loading procedures and location.

- (S/NF/SG/LIMDIS) Source A:

-- The target vessel is working toward its final destination which is toward Florida to its port of call. A connection is made wherein the drugs will be off-loaded to land within this time frame. Two male individuals are paramount in off-loading the said contraband.

- (S/NF/SG/LIMDIS) Source B:

-- The illegal contraband is located in a number of shiny railings throughout the vessel. There is a wooden panel located in the rear of the main compartment which also has something hidden behind it (sketch 4A).

-- The vessel will off-load in a large maintenance/ repair marina (one with facilities where a vessel can be pulled under a garage-looking structure). The railings will have to be physically removed in order to get at the stuff. The name **STINGRAY COVE** or **CAY** or **KEY** has come up again.

-- The location of this operation is in the area north of Key Largo up to the Key Biscayne vicinity.

- (S/NF/SG/LIMDIS) Source C:

-- Vessel could be traveling towards or could be near the Florida area. Off-loading procedures consist of hauling boxes/crates off the vessel. Off-loading will occur soon. It will be difficult to find the contraband because it will be in similar boxes/crates to others that will not contain contraband.
